Rationale

MAI's policy has always been to allow visitors to the wildlands roam trails and rocky coastline freely. In the case of *groups* being brought to the island for short visits, new challenges are posed in the increased trail wear, trash, and the general change in the ambiance or the wildlands.

Communicating with the organizers so that the visitors are informed about the private nature of the MAI land, that it is not public land, that it costs money to maintain, that it is ecologically fragile, and that it needs to be respected is crucial to the continued openness of it.

This policy is an attempt to identify what actions *groups* need to take prior to such a visit. If our land is not respected we have the right to restrict its access. Making this clear to would-be tour organizers is important to keeping the wildlands wild and to the extent possible, free from overuse and abuse by excessive visitation on them.

Appendix A

Land Use Expectations for Groups

Monhegan Associates, the owners of the wildlands, ask all visitors to adhere to the guidelines below in order to protect and preserve the wildlands for current and future generations.

Monhegan Associates land is privately owned. It is maintained to be as wild as possible, while still accessible to visitors. Please respect the land as if it were your own.

Stay on the trails: This is for visitor safety as well as minimizing the disturbance to the environment. Use the Monhegan Associates map to plan your route according to your ability.

Safety Considerations: The wildlands of Monhegan are left purposefully as wild as possible. Because of this there are unique dangers:

The depth of the water immediately off the backside of Monhegan poses a unique danger from deep water waves. Stay well above the high tide line and black rocks. Deaths have occurred.

Do not swim, wade or scuba dive off the rocks around the island, as currents and waves make rescue almost impossible.

Trails are rugged and rescue is difficult. Medical help is limited. Wear appropriate footwear.

Poison ivy is present on the trails. Be alert and vigilant.

Hornet and wasp nests are common throughout the wildlands.

IN THE EVENT OF EMERGENCY CALL 911. Cell phone coverage is often limited.

Prohibited Activities:

Smoking

Fires

Camping

Technical climbing

The landing, launching, and piloting of drones

Landing of any boats or water craft

Wheeled vehicles on trails

Sound amplification or radios etc.

Area lighting, laser lights

Toilets:

There are no toilet facilities in the *wildlands*.

Limited public bathroom facilities are located in town.

Visitors should understand they will not have access to toilets in the *wildlands*. Plan accordingly to keep our *wildlands* pristine.

Leave No Trace:

Carry out what you carry in

There are no trash receptacles

Don't deface the *wildlands* in any way

Don't remove objects from the *wildlands* other than trash

Don't leave any paint supplies (paint, solvents, solutions, etc) or leave paint stains on the rocks.

Don't build structures of any kind.

Keep your group small (under 12 people)

Respect the peace and serenity of others at all times
